

“CPR + ” program

Emergency Medicine dept of Smt. NHLMMC, is conducting BLS(Basic Life Support) training of SVP nursing staff (800 plus already trained in 2022), nursing college students, Physiotherapy college students, AMC medical officers and staff, AMC swimming pool coaches etc.

Now one steps further, dept has planned “**CPR +** ” , to be conducted on first once every month for the interns of Smt. NHLMMC. This will be full day program. Interns will be divided in batches of 30 and scheduled at the time of posting only.

Contents: CPR (hands on cardiopulmonary resuscitation), oxygen therapy, ECG revision, managing life threatening cardiac and medicine conditions. Lectures will be followed by real life scenario on manikins. Interns need to complete this before getting final internship completion certificate.
